

COMMUNITY NEUROREHAB SERVICES

a division of
ALLIANCE PSYCHOLOGICAL SERVICES LTD.

CLINICAL NEUROPSYCHOLOGIST – PART TIME

Want to make a difference?

You can. Community Neurorehab Services (CNS) is a Calgary-based clinic helping people with personal or family stroke or brain-injury related issues. We are community-based and focus on individual needs. We encompass family issues, we are holistic. Join a high-performing team that focuses on improving and maintaining every aspect of life for individuals recovering from brain dysfunction.

As part of the interdisciplinary team you will participate in assessment and treatment of psychosocial concerns for individuals with brain injury or cognitive dysfunction secondary to another medical condition. CNS is a fast paced, high performance team that produces outstanding outcomes for stakeholders, with strong support for our staff.

You will work as part of an interdisciplinary team of professionals and rehabilitation specialists, in collaboration and consultation with other psychologists.

If you are seeking the opportunity to:

- Work with a team of professionals and rehabilitation specialists committed to a high degree of interdisciplinary team collaboration.
- Manage a diverse and challenging caseload with regular consultation and support with other psychologists.
- Provide a variety of clinical activities including Neuropsychological Assessment and direct interventions (individual, family and group) to persons with stroke and brain injury.
- Contribute in a fast paced multi-tasking-working environment with strong support.
- Develop project management, research and presentation skills.

And your qualifications include:

- You are registered, or eligible for registration with supervision, with the College of Alberta Psychologists and Canadian Psychological Association.
- Completion of a PhD from a recognized clinical / rehabilitation degree program.
- Experience in neuropsychological assessment and or have completed graduate assessment course work.
- An excellent attendance record, reliability and personal suitability as demonstrated in your employment record and references.

Wage: To be determined by qualifications with eligibility for benefits at 6 months into the term.

Dates: Available March 1, 2010 (position will remain open until suitable candidate is identified)

Supervision: If required, will be provided by a Registered Clinical/Neuropsychologist and follows standard practice guidelines outlined with the College of Alberta Psychologists.

To learn more about CNS visit our web address at www.alliance-cns.com. Further information is available by telephone at 215-1501. Applications for this position may be forwarded by resume, in confidence to the Director. Fax 215-1505, email: cns1@telus.net
